Riddell®

2026 CATALOG

WE ARE **FOOTBALL**

At Riddell, we believe football is more than a game—it's a community built on dedication, teamwork, and care. Whether you're coaching the next generation, managing essential administrative and equipment duties, or cheering from the stands, your role matters.

As fields across the country come alive with the sights and sounds of the game, we are here to help protect and outfit your athletes, like you've trusted us to do since 1929. From providing cutting-edge helmets equipped with smart technology to apparel needs and industry-leading service, we've got you covered.

On behalf of all of us at Riddell, we are happy to introduce you to our 2026 line of products, where you are at the center of every innovation. Because at Riddell, **football isn't just our business—it's our passion, too.**

Allison Boersma, President & CEO, Riddell

GIVING BACK TO THE COMMUNITY

Riddell is dedicated to giving back to local communities through our good-for-the-game initiatives and equipment grants that support programs in need. With the help of elite players and partners like the NFL, NFL Foundation, USA Football and Pop Warner, among others, Riddell is providing the resources necessary to grow the game at a grassroots level.

PEYTON MANNING
Brand Ambassador & Strategic Advisor
Shown visiting our North Ridgeville, Ohio Facility

Between 2025 – 2028, the Denver Broncos Foundation will donate over 15,000 Riddell Axiom helmets to every high school tackle football program in Colorado. Each school will receive 25% of its helmets annually, based on team size, along with a four-year subscription to InSite Analytics and a Riddell Sideline Device.

As part of the Denver Broncos Foundation's commitment to equitable access through ALL IN. ALL COVERED., the Riddell Team visited all 275 participating schools across Colorado to personally fit players receiving an Axiom helmet in the program's first year.

TERMINOLOGY

TRU-FIT™
A personalized fitted helmet crafted from 3D scanning technology and a proprietary algorithm to provide the ideal fit for every individual.

ADVANCED ENERGY MANAGEMENT MATERIALS
Liner components using an enhanced energy management material formula co-developed with BASF or 3D printed material to optimize protective performance.

PRECISION-FIT
A proprietary process that utilizes 3D scanning technology to craft a completely customized helmet for the individual player.

3D-PRINTED VARIABLE LINER COMPONENTS
Digitally designed, 3D-printed, high performance, impact absorbent and tunable lattice components that underscores a commitment to player protection.

INSITE ANALYTICS
InSite Analytics is an impact sensing and reporting system that combines in-helmet technology with a web-based subscription reporting service. Programs receive automated reports with objective data and analysis to help identify opportunities to adjust practice plans, improve player performance, and reduce head impact exposure.

INSITE PLAYER UNIT
An integrated five-zone sensor pad that monitors and records data from head impacts that occur.

PATENTED SIDE IMPACT PROTECTION
(PSIP) Proprietary technology included in all Riddell helmet models. Research-based mandible protection helps reduce the forces from side impacts. Technology feature consists of side shell extensions combined with side liner extensions.

THE FLEX SYSTEM
Flexibility engineered into the helmet's shell, face mask and face mask attachment system with hinge clips; reduces impact force transfer to the athlete.

COMPOSITE ENERGY MANAGEMENT
Strategic combination of padding materials inside of the helmet absorbs impact energy and retain their position and purpose over extended durations of play.

QUICK RELEASE™
Face mask attachment hardware, precision-milled from stainless steel, disengages with a simple press of a button.

TRU-CURVE LINER SYSTEM
Interior liner conforms to the shape of a player's head and fits the contours of the helmet shell (front pad, crown, back/side, occipital lock, face frames) for improved comfort and fit.

OCCIPITAL LOCK
Inflatable liner that, when inflated, cradles the athlete's occipital lobe fine-tuning the helmet's fit.

CAM•LOC™ RETENTION SYSTEM
A chin strap attachment system developed based on elite player feedback, designed for easy, efficient adjustments to help secure proper fit.

HS⁴ FACE MASK
High Strength Spring Stainless Steel; thinner and lighter, high performance face mask improves sight-lines and field vision for the athlete.

AIR FIT LINER
Inflatable liner components used to make final sizing adjustments.

FLEXLINER
Flexible liner, designed to conform to various head shapes, providing comfort and helmet stability.

QUICK CHANGE LINER ATTACHMENT SYSTEM
Removable padding system with screw-in caps, designed for ease-of-use when performing helmet maintenance.

COMFORT OVERLINER
Removable, moisture-resistant liner cover with antimicrobial properties built-in to protect the product. Provides comfort and stability.

FITTED LINER
Fixed-sized helmet liner system provides comfort and protection without inflation.

BUILT-IN T-NUT WRENCH
Molded stops in the helmet shell allow for easy removal of screws without the use of a wrench or pliers.

PRECISION-FIT

Riddell Precision-Fit is a process that utilizes 3D scanning technology to craft a helmet personalized for the individual player. The research-based innovations that informed the Riddell SpeedFlex™ are combined with a first of its kind interior fit and protection system.

Precision-Fit technology was built on a foundation of game-changing protective features introduced by Riddell over the last decade. Those advancements led us to today. The next step in protective innovation is to change how we think about football helmets dramatically.

PRECISION-FIT

3D IMAGING TECHNOLOGY
3-dimensional imaging technology captures surfaces accurate up to 0.5mm.

CUSTOM TOOLING/MOLDING
One-of-a-kind production molds are developed for each athlete.

PERSONALIZED PROTECTION
Energy-managing materials are contoured for an athlete's unique head and size, replacing traditional fitting components.

PERSONALIZED PROTECTION IN THREE DIMENSIONS
Energy-managing materials contoured precisely to the athlete's head, replacing traditional fitting components.

IMPROVED SIGHTLINES & MAXIMIZED FIELD VISION
The athlete chooses where the helmet is positioned.

PERSONALIZED COMFORT
Padding that precisely fits each athlete's unique head size and shape.

CUSTOMIZED HELMET TRACKING
Contoured padding engineered to move with the athlete.

SEI Certified
Product Meets NOCSAE® Applicable Standard

This helmet is certified to meet the NOCSAE Standard.

HELMET	ITEM	PRICE
SpeedFlex Precision	R41156	$2,285.00

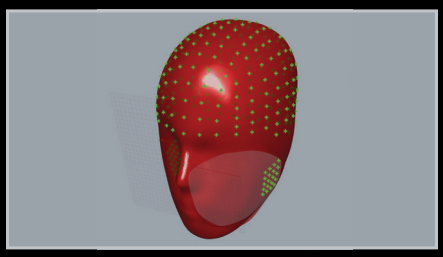

WARNING: NO HELMET CAN PREVENT SERIOUS HEAD OR NECK INJURIES A PLAYER MIGHT RECEIVE WHILE PARTICIPATING IN FOOTBALL. Do not use this helmet to butt, ram or spear an opposing player. This is in violation of the football rules and such use can result in severe head or neck injuries, paralysis or death to you and possible injury to your opponent. Contact in football may result in **CONCUSSION-BRAIN INJURY** which no helmet can prevent. Symptoms include: loss of consciousness or memory, dizziness, headache, nausea or confusion. If you have symptoms, immediately stop playing and report them to your coach, trainer and parents. Do not return to a game or practice until all symptoms are gone and you have received **MEDICAL CLEARANCE.** Ignoring this warning may lead to another and more serious or fatal brain injury.

Riddell® TRU-FIT™

HOW IT'S DONE

ACQUIRE HEAD SCAN
The 3D scanning technology developed for Precision-Fit helmets captures surfaces accurate up to 0.5 mm. The Riddell Head Scanning app is easy to download and use for iOS and Android devices from your app store.

FIT ANALYSIS
Riddell's proprietary fit algorithm analyzes thousands of data points from the head scan to select shell size and energy management components to generate a unique, individualized build configuration.

INDIVIDUALIZED BUILD
In Riddell's facility in North Ridgeville, Ohio, each helmet is built by combining the team's design specifications, individual player preferences and unique build configuration. The helmet is labeled with the player's name to complete the personalization process.

The fit and feel of Precision-Fit - without dedicating the helmet to an individual player. The liner system can be reconfigured to fit different players as the program's roster evolves. Personalized fit is achieved by analyzing a 3D image of an athlete's head collected with Riddell's Head Scanning app, available for iOS and Android.

Each helmet is built with a unique combination of interior liner pads that work together to create a personalized fit and protection system.

No Fitting Foams. No Air Adjustments.

Riddell®
INSITE ANALYTICS

HOW DOES IT WORK?

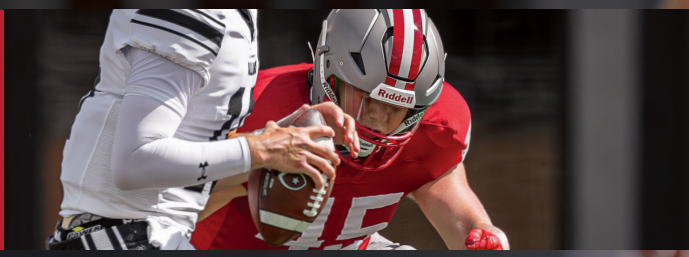

GAIN AND MAINTAIN A COMPETITIVE ADVANTAGE WITH SMART HELMET TECHNOLOGY

InSite Smart Helmet technology is an innovative impact sensing and reporting system that collects and transmits impact data from the field – including impact location, load, intensity and volume.

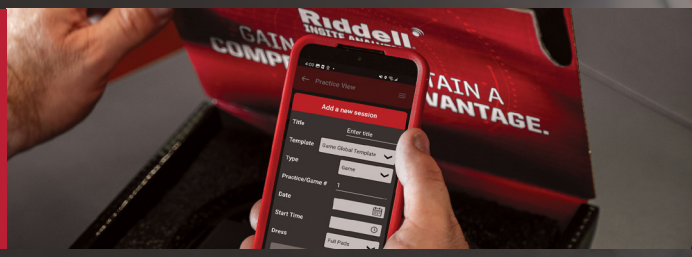

When combined with an InSite Analytics subscription, football programs receive automated reports with objective data and analysis to help coaches and trainers identify opportunities to adjust practice plans, improve player performance and reduce head impact exposure.

1

Upon contact, the five-zone InSite sensor pad in the smart helmet measures and evaluates the impact.

2

Data is collected and automated reports are sent in a daily, weekly, or season-long summary.

3

Insights and analysis are used to proactively influence player performance and reduce head impact exposure.

Riddell InSite Analytics alerts the sideline to significant single or multiple impacts that **MAY** result in a concussion. Riddell InSite Analytics is **NOT** a medical device. Riddell InSite Analytics is **NOT** a protective device and it does not protect against injuries. **Riddell InSite Analytics does not diagnose concussions and is not intended to be used as a diagnostic tool.** Refer to the instruction manual for recommended usage.

Riddell will configure your team's helmets and maintain your InSite Smart Helmet technology throughout the season (dependent upon subscription tier; additional fees may apply). Plus, our support team is just a call or click away.

INSITE ANALYTICS TESTIMONIALS

INSITE ANALYTICS IS CHANGING THE GAME FOR TOP FOOTBALL PROGRAMS

Riddell's smart helmet technology with InSite Analytics offers a proactive, data-driven approach to player protection and performance that is reshaping how football is coached and played. Here's what programs have to say about Insite Analytics:

HEAR HOW COACH O'NEIL USES IMPACT DATA

to teach and train athletes to tackle the right way and become better football players.

SCAN THE QR CODE TO WATCH THE 2:30 MINUTE VIDEO

"If anyone was sitting on the fence thinking about whether or not to start using InSite Analytics, I think it's a no brainer. I think you just got to jump right in. You're going to see the data. It's so easily used and it's going to be eye opening right away."

» **CJ O'Neil, Head Coach | Cardinal Hayes High School**

"It [InSite Analytics] definitely opened our eyes as coaches. Although we think we're seeing a lot of the game, we're actually missing a lot of those contact points that come in. That's helped us a lot in terms of our coaching."

» **George Dawson Jr., Linebackers Coach & Special Teams Coordinator | Cardinal Hayes High School**

SHERMAN WOOD, HEAD COACH

"When I receive the weekly reports, it is critical for me to observe every position. Following my observation, I then forward the charts to every staff member to share with their position group. It's a win. No question about it."

» **Sherman Wood, Head Coach | Salisbury University**

"It's a great investment for any program to have InSite Analytics. You're getting information on how to teach and train your athletes to do the right thing on the field, and then if you're keeping on it at practice, then they'll do it the right way in the games."

» **Tim Smith, Athletic Equipment Specialist | Salisbury University**

Riddell InSite Analytics alerts the sideline to significant single or multiple impacts that **MAY** result in a concussion. Riddell InSite Analytics is **NOT** a medical device. Riddell InSite Analytics is **NOT** a protective device and it does not protect against injuries. **Riddell InSite Analytics does not diagnose concussions and is not intended to be used as a diagnostic tool.** Refer to the instruction manual for recommended usage.

Riddell® AXIOM 3D

Utilizing additive manufacturing for the variable liner components, Axiom^{3D} provides performance tunability for improved impact response. The comprehensive protective system of the Axiom coupled with this proven 3D-printed liner technology, creates new models that meet NFL-level, position-specific criteria for players, including QB, OL and DL position groups.

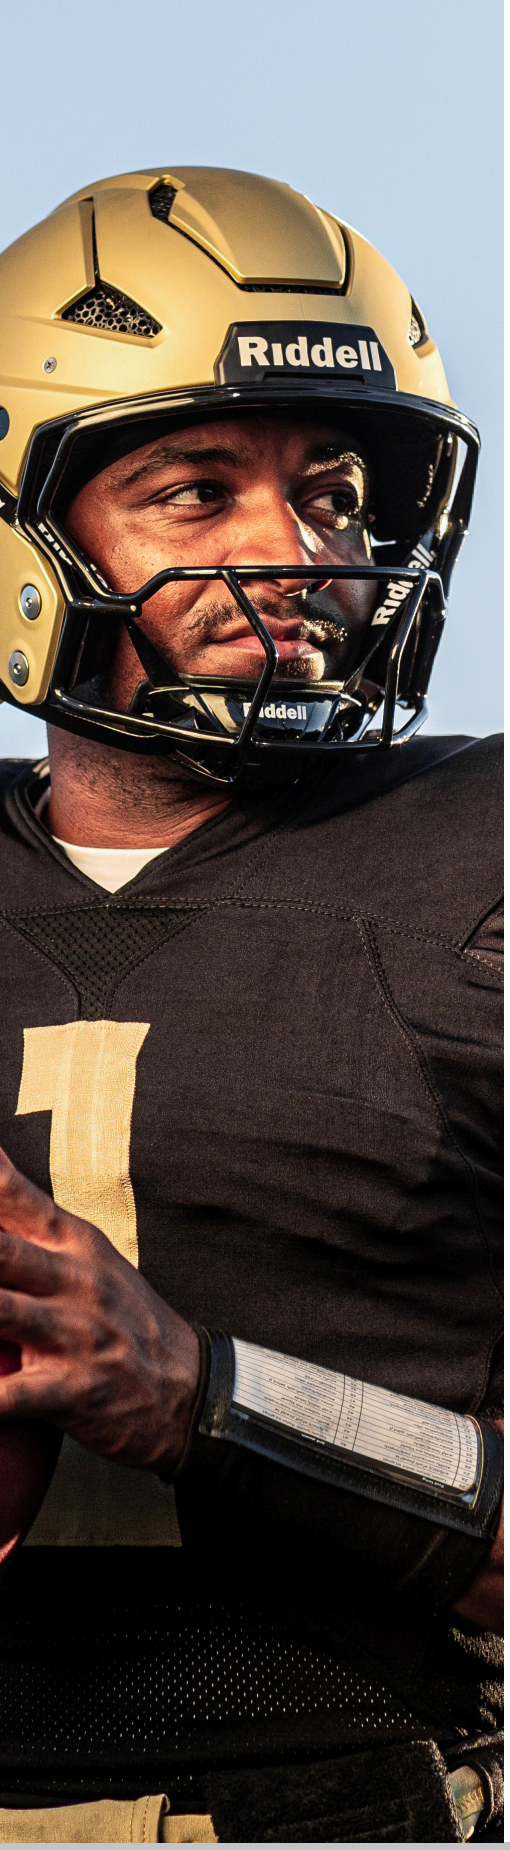

3D-PRINTED VARIABLE LINER COMPONENTS

Digitally designed, 3D-printed, high performance, impact absorbent and tunable lattice components that underscores a commitment to player protection.

HELMET SIZE	ITEM	PRICE
SpeedFlex: S-L	R41195	$555.00
SpeedFlex: XL	R41195	$575.00

WARNING: NO HELMET CAN PREVENT SERIOUS HEAD OR NECK INJURIES A PLAYER MIGHT RECEIVE WHILE PARTICIPATING IN FOOTBALL. Do not use this helmet to butt, ram or spear an opposing player. This is in violation of the football rules and such use can result in severe head or neck injuries, paralysis or death to you and possible injury to your opponent. Contact in football may result in **CONCUSSION-BRAIN INJURY** which no helmet can prevent. Symptoms include: loss of consciousness or memory, dizziness, headache, nausea or confusion. If you have symptoms, immediately stop playing and report them to your coach, trainer and parents. Do not return to a game or practice until all symptoms are gone and you have received **MEDICAL CLEARANCE.** Ignoring this warning may lead to another and more serious or fatal brain injury.

Riddell®

SPEED CLASSIC ICON

The Speed Classic Icon offers Riddell's Patented Side Impact Protection in a classic shell shape with no overliner.

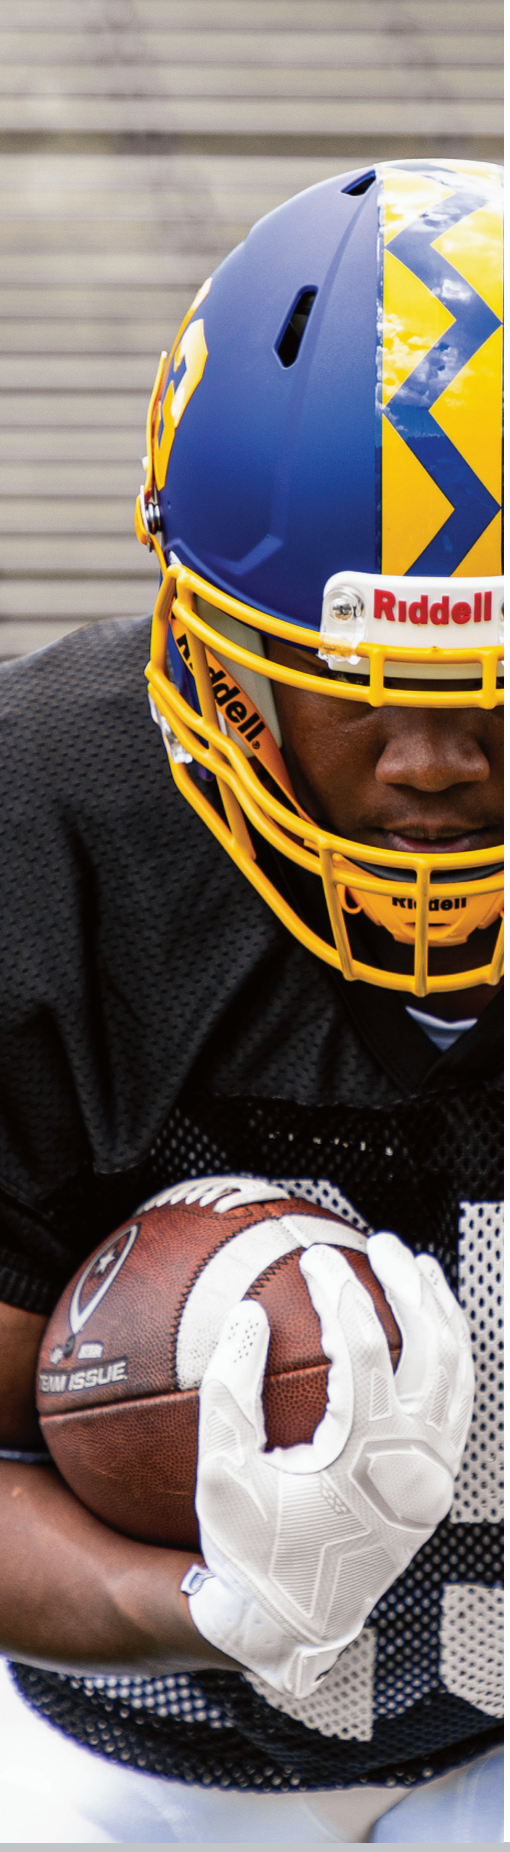

HELMET UPGRADE

For a full list of upgrade options, go to pages 36-37.

DESIGN SHOWN:
PAINT: Flat Bright Blue Pearl, 7703
FACE MASK: Green Bay Gold
CHIN STRAP: Green Bay Gold Hard Cup

UPGRADE: Quick Release Upgrade

SPEED CLASSIC ICON

HS^4 FACE MASK
High Strength Spring Stainless Steel; thinner and lighter, high performance face mask improves sightlines and field of vision for the athlete.

QUICK CHANGE LINER ATTACHMENT SYSTEM
Removable padding system with screw-in caps designed for ease-of-use when performing helmet maintenance.

QUICK RELEASE™
Face mask attachment that disengages with a simple press of a button.

SIZE	HAT SIZE	APPROXIMATE HEAD CIRCUMFERENCE
M	6 ½ - 7	20 3/8" - 22"
L	7 - 7 ½	22" - 23 ½"
XL	7 ½ and up	23 ½" and up

Inflation may be required for proper fit. See page 48 for Riddell recommended fitting tools for use on all valves.

ND6 HELMETS

SEI Certified
Product Meets
NOCSAE®
Applicable Standard

NEW ND6 HELMET CRITERIA

On February 7, 2025, the NOCSAE Standards Committee finalized the first ever performance standard for youth football helmets. The new standard directly addresses unique risk exposures for youth football players. For more information, visit **https://nocsae.org/overview-nocsae-youth-football-helmet-standard/** to read the full ND006 standard.

COMMITMENT TO EXCELLENCE

As Riddell strives to improve on-field protection and performance, **all Riddell ND6 helmets produced for the 2026 football season will meet the new standards set forth by NOCSAE, ahead of the effective date of September 1, 2027.** As the head protection leader, Riddell is here to protect and outfit your athletes through continued innovation.

WARNING: NO HELMET CAN PREVENT SERIOUS HEAD OR NECK INJURIES A PLAYER MIGHT RECEIVE WHILE PARTICIPATING IN FOOTBALL. Do not use this helmet to butt, ram or spear an opposing player. This is in violation of the football rules and such use can result in severe head or neck injuries, paralysis or death to you and possible injury to your opponent. Contact in football may result in **CONCUSSION-BRAIN INJURY** which no helmet can prevent. Symptoms include: loss of consciousness or memory, dizziness, headache, nausea or confusion. If you have symptoms, immediately stop playing and report them to your coach, trainer and parents. Do not return to a game or practice until all symptoms are gone and you have received **MEDICAL CLEARANCE.** Ignoring this warning may lead to another and more serious or fatal brain injury.

Riddell®
SPEEDFLEX YOUTH

The SpeedFlex suite of products features the first helmet designed with a flexible shell.

» **The SpeedFlex Youth is recommended for youth players through junior high.**

NEW ND6 HELMETS
Learn more about Riddell's ND6 helmet line on **pages 30-31.**

DESIGN SHOWN:
PAINT: Aqua Metallic, 1765
FACE MASK: Orange

WARNING: NO HELMET CAN PREVENT SERIOUS HEAD OR NECK INJURIES A PLAYER MIGHT RECEIVE WHILE PARTICIPATING IN FOOTBALL. Do not use this helmet to butt, ram or spear an opposing player. This is in violation of the football rules and such use can result in severe head or neck injuries, paralysis or death to you and possible injury to your opponent. Contact in football may result in **CONCUSSION-BRAIN INJURY** which no helmet can prevent. Symptoms include: loss of consciousness or memory, dizziness, headache, nausea or confusion. If you have symptoms, immediately stop playing and report them to your coach, trainer and parents. Do not return to a game or practice until all symptoms are gone and you have received **MEDICAL CLEARANCE.** Ignoring this warning may lead to another and more serious or fatal brain injury.

OAKLEY® EYE SHIELDS

AN OFFICIAL ON-FIELD PARTNER OF THE NFL

As a sport performance optics brand, shields are a key product for enhancing vision for players. Oakley saw the opportunity to dramatically innovate to protect the players while elevating the game with rigorous safety testing protocols, Prizm™ Lens Technology, High Definition Optics (HDO®) and state of the art coating capabilities.

HIGH DEFINITION OPTICS®

Engineered to optimize safety and performance with Oakley High Definition Optics® (HDO®) technology, providing football players with the sharpest, most accurate field of view while maintaining clarity at all angles of vision.

PROTECTION

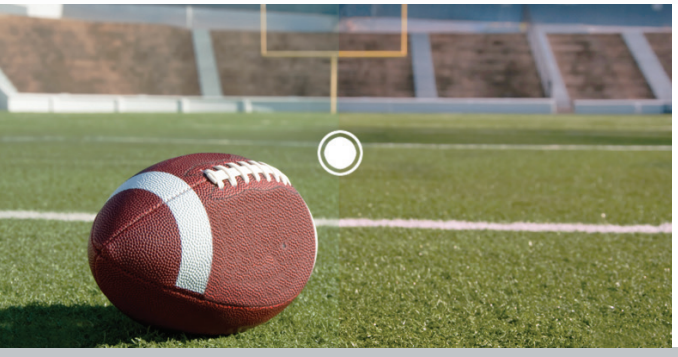

Oakley Football shields have gone through intense testing to ensure impact protection.

EASY INSTALLATION

Oakley's shield hardware has a slimmer design with seamless twist on installation, precision stop and no tools required.

PRIZM™ LENS TECHNOLOGY

Prizm is an Oakley lens technology designed to enhance color and contrast so players can see more detail. With Prizm Clear and Prizm Gridiron, field lines stand out, the football becomes more vivid, and the players' on-field experience is enhanced.

THE WORLD'S LARGEST RECONDITIONER OF FOOTBALL EQUIPMENT

Riddell is the expert in keeping your equipment game ready. Reconditioning - including cleaning, sanitizing and recertifying - is essential for prolonging the life of your equipment.

SANITIZE
Riddell will clean, sanitize, recondition and recertify your equipment. Take an extra step to sanitize with an O-Zone add-on.

Not intended for the prevention of COVID-19

NOCSAE CERTIFIED
Football helmets are now required to be recertified minimally every other year in accordance with manufacturer's warranty validation requirements to remain NOCSAE certified.

YOUTUBE CHANNEL
Visit **youtube.com/riddellsports** for videos about our full reconditioning process.

CONTACT YOUR REP
Contact the Riddell Sales Rep in your area for further details.

HOW IT'S DONE

Annual reconditioning ensures equipment continues to meet performance standards.

1 UNLOAD

Helmet bags are delivered to our facility. Each bag is taken out by hand.

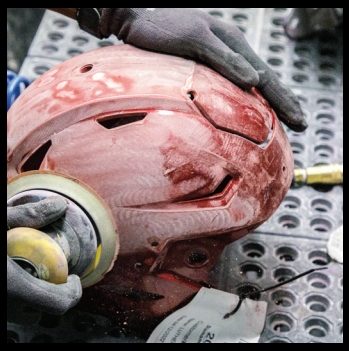

2 SORT

Each bag is sorted by school name and then placed in line to be evaluated.

3 TEARDOWN

Face masks, hardware and decals are removed.

4 BUFF & SAND

The shell of the helmet is sanded and buffed to smooth out any gouges and remove any remaining decals.

5 WASH

Helmets are cleaned and sanitized by hot pressurized water and detergent and then rinsed.

6 INSPECT

Helmets are hand-inspected for hairline cracks and any other defects.

7 PAINT

For painted helmets, new paint is applied. Paint color changes can also be made at this time.

8 BUILD

Interior parts are replaced if necessary. Warnings, other labels and a recertification seal are applied before hardware is reattached.

SCAN QR CODE

Visit our YouTube page to watch a video about the reconditioning process.

Don't forget to ask your rep about reconditioning for shoulder pads.

Riddell reserves the right to reject any equipment obsolete, outdated, not meeting the required standards or not meeting the expense of repair.
WARNING: Football is a dangerous sport which may result in serious injury or even death. Although our equipment is designed to help reduce the risk of serious injuries, there is no guarantee that any injury will be prevented by the use of this equipment.

TERMINOLOGY

DIGITAL TAILORING
The proprietary process of collecting information from the player, equipment and medical staffs, combined with 3D scan of a player's torso. Our fit algorithm generates a unique build configuration for that player's shoulder pads.

MODULAR ARCH SYSTEM
A proprietary design that utilizes segmentation to allow the athlete to significantly improve their range of motion without sacrificing player protection.

INTEGRATED RIPKORD™ TECHNOLOGY
The RipKord shoulder pad removal system utilizes a release mechanism that is strategically integrated into the shoulder pad that allows for quick and easy removal and access to the player.

ENERGY MANAGEMENT BODIES
Strategic combination of energy management materials inside the shoulder pad bodies absorbs impact energy and retains position and purpose during play.

STAC SHOULDER SYSTEM
Streamlined cap and epaulet system provides protection to the AC joint while allowing for maximum mobility.

REMOVABLE/ADJUSTABLE DELTOIDS
Contoured closed cell foam piece that protects the deltoid muscle during contact.

SWIM CUT ARCHES
Strategically designed arch pattern used to optimize an athlete's arm motion.

BIOTHANE® STAC STRAPS & BELTS
Strong, flexible Biothane® coated webbing.

FLAT PAD DESIGN
Shoulder pad design that sits low across the player's shoulder, minimizing interference with the rotational range of the helmet. Rigid belts route forces away from the point of impact by converting the entire arch into a large-scale, shock absorbing system.

AIR MANAGEMENT LINER
Shoulder pad liner construction that attenuates impact energy on a cushion of air within semi-sealed chambers. Energy dispersion occurs through spreading the impact forces within a large volume of air slowly released from the liner at a controlled rate.

CORRUGATED ARCHES & EPAULETS
Engineered design element which raises areas of the outer surface to create a stronger structure, allowing the component to be thinner for weight reduction.

INTEGRATED DELTOID PADS
Open cell foam piece that protects the deltoid muscle during contact.

Z-FIT BELTING SYSTEM
Attachment system using high-strength nylon clips to increase the ease of putting on and securing a shoulder pad.

PIVOT BELTING SYSTEM
Adjustable belting system that utilizes Biothane® webbing with strategically placed radial slots to allow personalized fit for different athlete body shapes.

PIVOT SWIVEL ARCH ATTACHMENT SYSTEM
A redesigned swivel front attachment system with dual motion capabilities that allow for more mobility while keeping the shoulder pad in place.

INDUSTRY EXCLUSIVE EXTENDED WARRANTY* ON RIDDELL SHOULDER PADS
» 5-Season Warranty on Power Shoulder Pads
» 3-Season Warranty on Riddell Shoulder Pads

Riddell recommends that shoulder pads be removed from service after 10 years of use.

**To maintain extended warranty, shoulder pads must be reconditioned by Riddell at least every other season.*

SHOULDER PAD TESTING

THE WHY

As helmet testing is a key indicator of equipment performance, Riddell was committed to creating a never-done-before shoulder pad testing method to design and create shoulder pad products that optimize protective performance.

THE PROCESS

Impact Locations:

In collaboration with the NFL and Biocore, Riddell created an instrumented shoulder surrogate that could measure impact energies transferred to the player during contact. Similar to helmet testing, this shoulder pad test drops a weighted element onto the top of the shoulder pad, recording several impacts on and around the simulated AC joint.

THE RESULTS

Using our experience designing for the athlete, combined with test methodologies in sync with Biocore and NFL Health and Safety work, Riddell launched a new shoulder pad testing and fitting process that meets the needs of all those supporting on-field play. With the successful production of the Power DTX1 shoulder pad, Riddell can continue designing, developing, and testing shoulder pads for all levels of the game.

WARNING: NO SHOULDER PAD CAN PREVENT SERIOUS OR FATAL INJURIES A PLAYER MIGHT RECEIVE WHILE PARTICIPATING IN FOOTBALL. Any modification or alteration of this product could reduce its protective capacity. Football activities may result in heat related illness. Symptoms may include: dizziness, cramping, heavy sweating, vomiting, confusion, or elevated temperature. If you have symptoms immediately stop playing and report them to your coach, athletic trainer, and parents. Do not return to activity until all symptoms are gone and you have received **MEDICAL CLEARANCE.**

DIGITAL TAILORING FOR THE ELITE ATHLETE.

Riddell® POWER® DTX1

PLAYER PROTECTION

The Power DTX1 liner system is created from the same energy management materials as our Tru-Fit helmets.

PERSONALIZED FIT

Digital tailoring is a proprietary process that combines collected information with a 3D scan of a player's torso to generate a unique build configuration.

PLAYER PERFORMANCE

The modular arch system significantly improves an athlete's range of motion without sacrificing player protection.

UNDER SHIELD SOFT SHELL FOOTBALL PRACTICE PADS

Riddell | GAMEBREAKER®

GameBreaker Under Shield football practice pads
This practice pad offers maximum rib, spine, and shoulder protection for athletes in non-contact sports or during unpadded practices. Allowing for a full range of motion and a "padded practice" feel, the GameBreaker Under Shield soft shell shoulder pads allow coaches to teach the fundamentals without having to adjust when pad's come into play. GameBreaker Under Shield Practice Pads have been adopted by programs at every level of play from across the USA; from Pee-Wee's to Pros.

Visit Riddell.gamebreaker.com to learn more.

SLEDS & TACKLERS

A

B

C

D

	ITEM NAME	DESCRIPTION	ITEM	PRICE
A	Classic Two Man Pan Sled	The Classic Two Man Sled (A.K.A the Pan Sled) is the king of teaching the body mechanics of blow delivery. All of the fundamentals are encompassed in this one sled.	MC2R	Call for Details
B	S Pop Tackler	The Pop Up frame allows more reps in practice, as the player or coach does not need to upright the sled. The sled pops up fast! Simply tackle to the ground and let the sled return upright in seconds, ready for the next rep.	SPUT	Call for Details
C	Slingball	The Sling-Ball is an affordable new tackling tool that promotes "Rip Tackling". The Sling-Ball is a large 36" diameter round ball. The tube is attached to a small but heavy base. There is no metal in the base so it won't hurt a player if they land on it.	SLB1	Call for Details
D	Shockwave	Where strength collides with football: Gain thousands of football specific repetitions. The Shockwave works the transition zone between hitting a target and moving a target, challenging players to break the stalemate at the line of scrimmage.	SWV7-E	Call for Details

NOTE: Heavy items; additional freight changes will apply for blocking shield, blocking dummy, and sled replacement pads.

WARNING: Football is a dangerous sport which may result in serious injury or even death. Although our equipment is designed to help reduce the risk of serious injuries, there is no guarantee that any injury will be prevented by the use of this equipment.

ZOOM UNIFORM

RIPSTOP FABRIC

Ripstop fabric is Riddell's lightest weight fabric for a twill uniform. Targeted perforation allows for optimal breathability throughout the jersey and pants.

PRO STEPLINE MESH

Pro Stepline Mesh allows for a compression fit with ventilation to help keep the player cool, yet does not compromise durability.

RIDDELL'S LIGHTEST WEIGHT VARSITY UNIFORM SET

Combination of Ripstop woven fabric and Pro Stepline Mesh along with kiss-cut tackle twill and sublimated sleeves makes the Zoom Riddell's lightest weight uniform set.

ELASTIC WAIST JERSEY AND BELTED OR ELASTIC WAISTED PANT

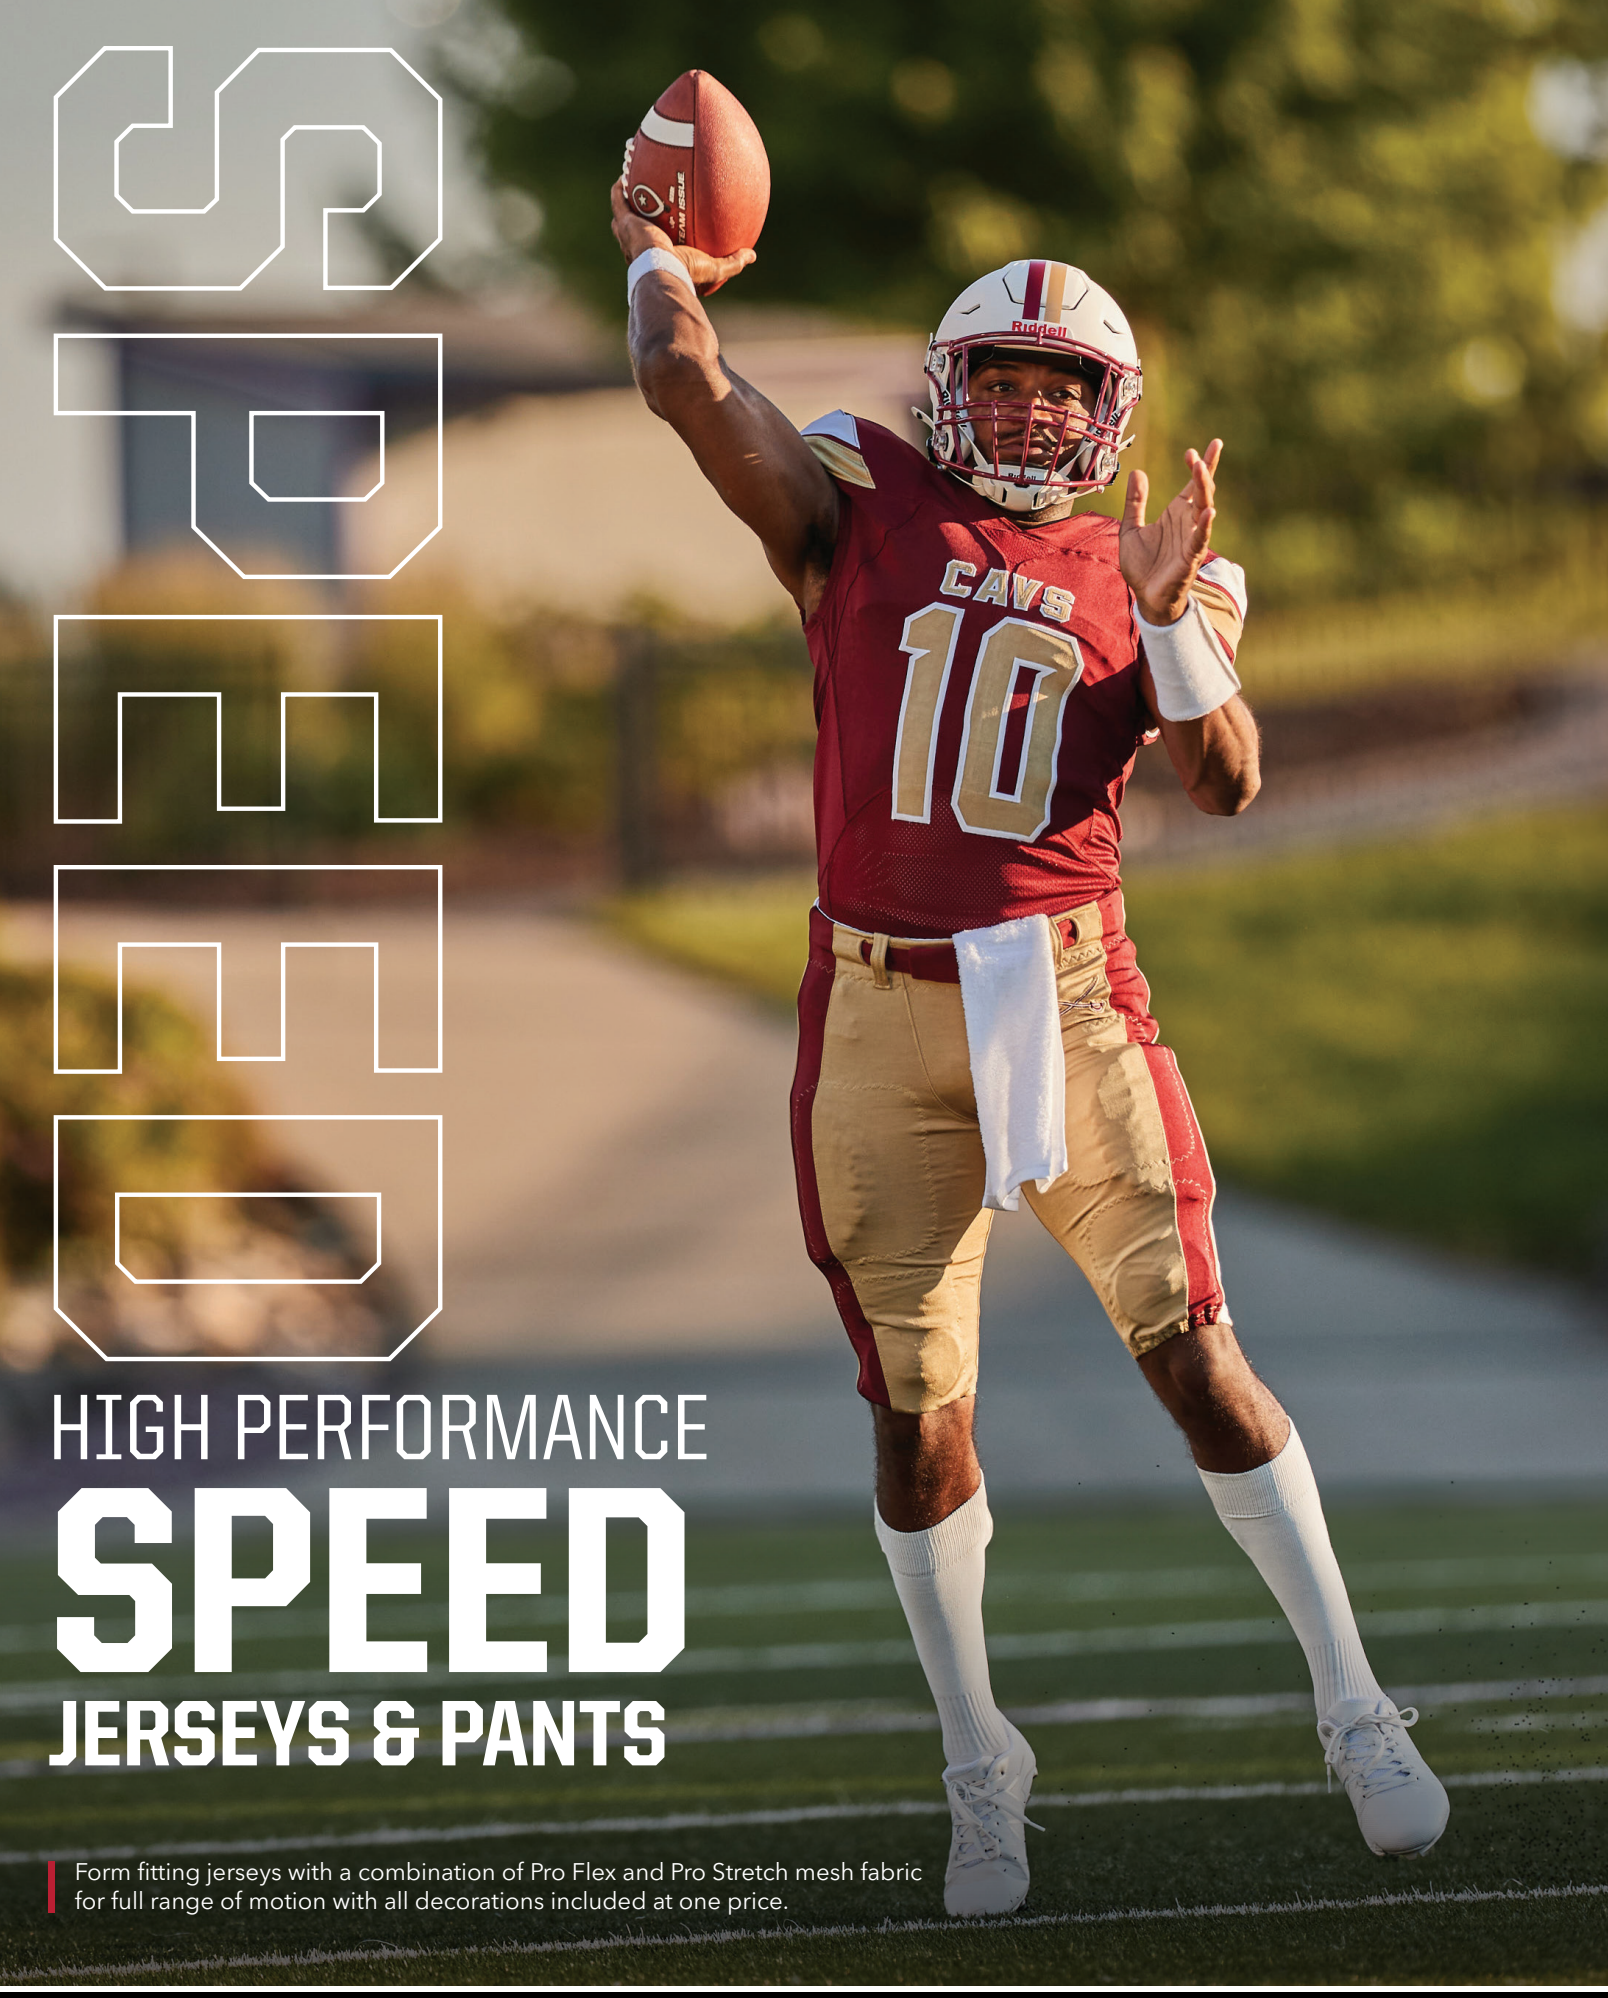

Ten uniform styles come with elastic waisted jersey and the option of a belted or elastic waisted pant.

FOUR TEXT FONTS TO CHOOSE FROM

Four fonts available for team name, numbers and last name. Choices are Agency Bold, Athletic, Cobalt, or Spartans.

Varsity level durability, combination of Stretch Woven body fabric and Pro Stepline Mesh inserts.

FULLY SUBLIMATED DECORATION TO CREATE UNIQUE IDENTITIES

Full uniform sublimation allows for a vast array of color choices, fonts, and sleeve stripes.

Fully sublimated jerseys in Riddell's process with unlimited customization and all decorations included at one price.

FORM FITTING DESIGN

Using Pro Stepline Mesh and Pro Stretch Dazzle offers you a form fitting cut throughout the body, shoulder and sleeves for a fit that today's athlete requests with outstanding range of motion and flexibility.

FULLY SUBLIMATED JERSEY

Completely sublimated decorations, numbers, mascots, team name, player's name and logos. All decorations are permanently dyed directly into the fabric. There will be no peeling or cracking to any of the decorations.

FULLY SUBLIMATED PANTS

Pro Stretch Dazzle sublimated pants with Pro Stepline Mesh inserts offering designed graphics to matching your team's jerseys. Pant options include full belt with built in d-ring with custom cover or elastic waistband with drawstring. Thigh and knee pockets included. Fully integrated belt is also available.

REVERSIBLE PERMATEK™
JERSEYS & PANTS

Home and away all in one! Fully sublimated uniforms using Riddell's process of unlimited customizations and all decorations included at one price.

1-PLY STRETCH MESH BODY AND SLEEVES
Lightweight but durable fabric allows us to sublimate on each side of the material so you can have two for the weight of one.

SUBLIMATED DECORATIONS
Completely decorated by using our sublimation process for the complete jersey and/or pant. All colors, numbers, names, logos and inserts are dyed directly into the fabric so you will never experience any peeling or cracking of your uniforms.

SUBLIMATED PANTS
Elastic waistband with drawstring and knee pocket (no thigh pocket) on all traditional pant styles. Integrated pants include all pads and full belt. Pants are not reversible.

OAKLEY EYEWEAR

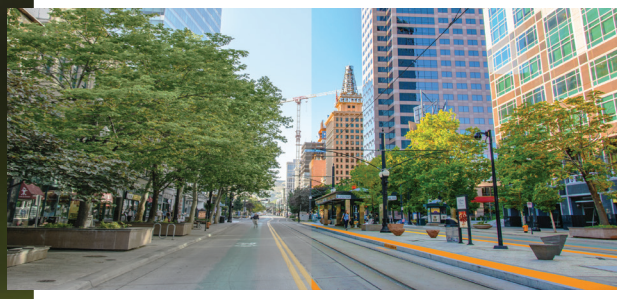

SINCE 1975

Oakley has developed iconic products across multiple categories that blend science with art. Designed in the USA.

Product Shown:
Model: BiSphaera™
Frame: Matte White
Lens: PRIZM™ Field

PRIZM LENS TECHNOLOGY

PRIZM™ LENS TECHNOLOGY

PRIZM™ is an Oakley Lens Technology designed to enhance color and contrast so you can see more detail.

HIGH DEFINITION OPTICS® AND HDPOLORIZED

High Definition Optics (HDO) eliminates distortion common in high wrap eyewear, providing clearer, sharper and more accurate vision. HDPolarized lenses use an injection molded single-layered lens for glare protection with uncompromised clarity.

OAKLEY

OAKLEY INNOVATIONS

Oakley sunglass lenses are made from Plutonite®, Oakley's high purity optical grade polycarbonate for comfort, clarity and protection. Oakley Iridium® lens coatings are designed to tune color and transmission while giving a unique look.

OAKLEY EYE SHIELDS

See **pages 56-57** for Oakley Eye Shield information.

OAKLEY

AN OFFICIAL ON-FIELD PARTNER OF THE NFL

Derwin James Jr. | Los Angeles Chargers - Safety
Product Shown:
Model: Heliostat
Frame: Matte Black
Lens: PRIZM™ Black

OAKLEY® SPHAERA™
Designed for boundary-pushing performance, no matter the sport, Sphaera's wide field of view guarantees you'll see it all - and with Prizm™ Lens Technology, you'll see it all in detail.

Frame: Matte Carbon
Lens: PRIZM™ 24k Polarized
Item: 888392619198
Price: Call for details

OAKLEY® BISPHAERA™
Seamlessly transition from dominating competition to owning the daily hustle with BiSphaera. The dual-lens performance sunglass is designed for the athlete who is looking for a versatile frame that offers all the benefits needed for sport and life.

Frame: Matte Black
Lens: PRIZM™ Black Polarized
Item: 888392620279
Price: Call for details

OAKLEY® HELIOSTAT
Heliostat updates Oakley®'s pioneering high wrap frame design. Elevated design features for the modern-day, made of O Matter™ frame material.

Frame: Matte Black Camo
Lens: PRIZM™ Deep Water Polarized
Item: 888392601582
Price: Call for details

OAKLEY® SYLAS
Oakley® Sylas offers a secure fit with upgraded features like hat compatibility, lightweight frame, and Prizm™ Lens Technology for all-day comfort.

HIGH PERFORMANCE
PERMATEK™

WRESTLING

SINGLETS

Fully sublimated uniforms in Riddell's process with unlimited customizations and all decorations included at one price.

COMPRESSION FIT
Compression fit singlet acts as a second skin that allows for full range of motion.

DECORATIONS
Uniform is completely decorated using our sublimation process. All colors, numbers, names, logos, and inserts are dyed directly into the fabric to avoid peeling and cracking.

LEG OPENING
Sewn in elastic leg opening enables stay-put comfort.

PRO DRY
» 74% Polyester
» 26% Spandex
» 7.67 oz. Material
